

**Solensia™**  
(frunevetmab injection)

## Help Your Cat Get Back to Their “Normal”

Solensia is the **FIRST and ONLY FDA-approved** treatment to control cat osteoarthritis (OA) pain.

Controls OA pain in cats: **After a single treatment, cats showed increased mobility<sup>1</sup>**

Works like your cat's naturally made antibodies to **reduce pain signals<sup>2</sup>**

**A once-monthly injection** administered in your veterinarian's office

**77%** of cat owners experienced seeing **improvement in signs of pain** when their cats were treated monthly with Solensia in a 3-month study<sup>3\*</sup>

**Without treatment, your cat's OA pain will continue to get worse. Ask about Solensia and get your cat back to being “your cat” with less pain.**

**IMPORTANT SAFETY INFORMATION:** For use in cats only. Women who are pregnant, trying to conceive or breastfeeding should take extreme care to avoid self-injection. Allergic reactions, including anaphylaxis, could potentially occur with self-injection. Solensia should not be used in breeding cats or in pregnant or lactating queens. Solensia should not be administered to cats with known allergy to frunevetmab. The most common adverse events reported in a clinical study were vomiting and injection site pain. See full [Prescribing Information](#).

\*67% of cat owners experienced improvement in signs of their cat's pain in the placebo group.
